

SOLAR CHEMICALS Branded & Private Label Formulas

SOLAR CHEMICALS is a specialty chemical manufacturer based in Atlanta offering a broad range of chemical products for the industrial, commercial and retail markets.

Solar's private label branded products are found in major retailers such as Walmart and Do-It-Best, while other private label brands are being marketed to national paint distributors, industrial plants and commercial facilities.

As the need for safer and environmentally friendly formulas increases, our laboratory has developed

a wide range of products based on "safe acids", California VOC compliant cleaners, NSF registered products and has numerous formulas compliant with the EPA's Safer Choice program (formerly DfE).

Our laboratory is also skilled at matching current formulas and providing cost-effective alternates to existing products.

The following product list highlights some of our current formulations. Our product library is extensive and varied... Please contact your local representative to discuss our full manufacturing capabilities.
